

Hotel 'Grand'

STRUCTURA CONCEPT®

“An interior is the natural projection of the soul.”

Coco Chanel

“Color is a power which directly influences the soul.”

Kandinsky

On Kopaonik, in the most beautiful National Park in Serbia, general contractor Structura Concept has renovated and furnished the Grand Hotel.

For a period of seven months, our team of civil, HVAC, electro, and interior engineers have worked together to achieve the goal to the highest standards and hand over the hotel. Special emphasis was placed on the entrance - reception, the Lounge BACCO bar, the Garden restaurant, the Boarding House restaurant, the spa and pool area.

Everything had to be perfectly in line with the highest world standards. The sophisticated furniture subtly softens the playfulness and sharpness of the finishing elements, and the result of this combination is an elegant and pleasant space to stay in. The interior is further enriched by plant life. Natural materials dominate, with marble, wood and leather both in the paneling and the furniture.

“Colors, like features, follow the changes of the emotions.”

Picasso

'Grand' hotel vision has been defined by a seamless alignment of cultural and design sensibilities, modern luxury, art and craftsmanship. A lot of work and effort has been invested to make even the smallest detail perfect, to make an outstanding impression . The interior space itself is particularly marked by its wall coverings, which make it warm and pleasant.
